Date: October 2017  
Subject: Sight Pass

Greetings Lion Officers,

The Lions of Illinois is excited to announce the partnership with Pearle Vision. Pearle Vision is going to be a large part of our retinal screenings. You are going to see changes in the way we do your screenings on your mobile retinal unit. You will see a Pearle Vision doctor at some of our screenings and health fairs your Foundation is invited to.

With a Pearle Vision doctor on board at your screenings, the recipients that go through the retinal unit will get instantaneous results on their screening. The recipient will not have to wait 2-3 weeks for their results to be mailed out to them. In order to get this program off the ground, your Foundation needs your help. We need you to accept the invitation to a screening in your community when your club receives the invite. Your Foundation will then coordinate with a Pearle Vision doctor to assist with that screening. Let us show the community that you care, and your that club does want to make a difference.

Pearle Vision and the Lions of Illinois Foundation are also collaborating with a new program called "Sight Pass". A sight pass will give a recipient in your community discounts on exams and glasses. This new program will also give a lion's member a 30% discount on an exam and glasses. The program will run just like our current Hearing Aid Program. All the information needs to go through your Foundation to get all the special incentives and discounts.

Enclosed in this packet is all the information you will need on Sight Pass to help a person in your community that will need an exam and glasses. For further information, please do not hesitate to give your Lions of Illinois Foundation a call.

Yours in Lionism,

A handwritten signature in black ink, appearing to read 'Mario J. Gumino'.
